CLERK SECURITY GROUP PERMISSIONS
VOUCHERS/DISCOUNTS

OPTIONS	PERMISSIONS WITH OPTION SELECTED ✔
VOUCHERS/DISCOUNTS	Access to the modules within the Vouchers/Discounts menu, primarily used to manage promotions that need to apply to POS Terminals.
Discount Setup	Allows access to build percentage or value Discount rules which can be automatically or manually applied to sales at POS Terminals. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Surcharge Setup	Allows access to build percentage or value Surcharge rules which can be automatically or manually applied to sales at POS Terminals. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Combo Setup	Allows access to build predefined combos which can be linked to a button on a keyboard for things like a packages or franchise meal deals. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Mix and Match	Allows access to build rules that can give percentage or value discounts when multiple products are purchased in the one sale at POS Terminals or via OrderAway. E.G. 2 for 1 deals or Burger + Chips + Drink Deal. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Raffle Tickets	Allows access to setup Raffle Tickets which can be sold through POS Terminals, generating Raffle numbers for a customer on a print out which can be drawn at a later time. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Vending Products	Allows access to manage products which apply to 3rd party Vending Machine systems. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Vouchers	Allows access to view/add/edit/delete Voucher Rules which need to be automatically or manually generated by SwiftPOS. Vouchers can then be redeemed in subsequent transactions. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Voucher Actions	Allows access to view/add/edit/delete Voucher Actions which can be linked to SwiftPOS Voucher Rules, to define what happens when a Voucher is redeemed. Impacts all Venues.
Voucher Layouts	Allows access to view/add/edit/delete Voucher Layouts which can be linked to SwiftPOS Voucher Rules, to define the look & feel of Vouchers generated out of SwiftPOS. Impacts all Venues.
Clear Voucher Ledger Records	Allows access to clear the voucher balances of all individual voucher barcodes of a certain Voucher Type. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
Barrel Promotions	Allows access to view/add/edit/delete Barrel Promotions Ticket Rules which need to be automatically generated by SwiftPOS when sales occur. Tickets are usually printed to a Barrel Printer or virtually stored for a draw at a later time. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
VAS Products Links	Allows access to manage products which link to Value Added Services (VAS) systems. **NOTE** : This only applies in those Location Groups for which authorisation has been granted.
